

**Element 2: Governance and Leadership**

The governing body and/or administration of the nursing home develops and leads a QAPI program that involves leadership working with input from facility staff, as well as from residents and their families and/or representatives. The governing body assures the QAPI program is adequately resourced to conduct its work. This includes designating one or more persons to be accountable for QAPI; developing leadership and facility-wide training on QAPI; and ensuring staff time, equipment, and technical training as needed for QAPI.
